Y. Ning, Synthesis of stereochemically controlled functionalized vinyl polymers and polyesters by metallocene-based catalysts. (D)

DEBBIE C. Crans, Methodology in enzyme catalyzed organic synthesis. (D)

Chemistry: Inorganic Chemistry. Electron-transfer reactions, photophysics, chemistry and electronic properties of metal complexes; electronic and optical properties of polymer and small-molecule-based redox active materials; redox catalysis; coordination chemistry of polymerizable, dyesensitized solar cells. OLEDs and OPVs. TEL: (970) 491-5204 FAX: (970) 491-1981 Email: elliot@cchem.colostate.edu

DEPARTMENTS OF CHEMISTRY

Delphine Kasimira Farmer, Biosphere-atmosphere exchange of reactive nitrogen oxides between the atmosphere and a ponderosa pine forest. (D)

FERRERA, ERIC MATTHEW (b.1978) Assistant Professor. B.S., 2000, Massachusetts Institute of Technology. Ph.D., 2005, University of California, Santa Barbara. NSF Postdoctoral Fellowship, 2006-2008, Stanford University. Catalysts; Organic Chemistry, Catalytic process development; transition metal catalysis, natural product total synthesis. TEL: (970) 491-6379 FAX: (970) 491-1801 Email: Eric.Ferrera@colostate.edu

Ferreira, Research, Group/Home.html

Eric M. Ferreria, Haiming Zhang and Brian M. Stoltz, Oxidative Heck-type reactions (Fujinara-Moritani reactions), Monod, 2009, 1, 85-100.

Michelle M. Morgan, Gas-phase and surface analyses for exploration of plasma catalytic reduction of NO. (M)

FISH, JOHN D. Assistant Professor. B.S., 1977, Pennsylvania State University; Ph.D., 1984, University of Wisconsin. NIH Postdoctoral Fellow, 2005-2008, California Institute of Technology. Organic Chemistry. Synthetic biology, peptide chemistry, protein directed evolution, phase display, virus particle engineering. TEL: (970) 491-4115 FAX: (970) 491-7369 Web: www.engr.colostate.edu/cheme/pages/Nick_Fish.html Email: Nick.Fisk@colostate.edu

No publication information submitted for this edition.

HENRY, CHARLES S. (b.1972) Associate Professor. B.S., 1994, Missouri Southern State College; Ph.D,. 1998, University of Arkansas. NIH Postdoctoral Fellow, 1998-1999, University of Kansas. Bioanalytical Chemistry; Environmental Chemistry. Our group performs research at the interface between bioanalytical chemistry and environmental chemistry. TEL: (970) 491-2852 FAX: (970) 491-1801 Web: www.chem.colostate.edu/chem
