Biochem. J.

SCOTT, E. E.

MITSCHER, L. A. (b.1931) Professor Emeritus B.S. 1953, Wayne State University. Medicinal and/or Pharmaceutical Chemistry. Natural Products Chemistry. Antifungal agents, antimutagenic agents, teratogenic agents, herbal medicines, combinatorial chemistry. TEL: (785) 864-4562

Email: lmitscherlku.edu

PETERSON, B. R. (b.1968) Professor. B.S. 1989, University of Nevada, Reno; Ph.D, 1994, University of California, Los Angeles. Darmon Runyon-Walter Winchell Cancer Research Foundation Fellowship, 1995-1998. Harvard University. Bioorganic Chemistry: Medicinal and/or Pharmaceutical Chemistry. Medicinal chemistry and chemical biology; organic synthesis and molecular biology directed at the design, discovery, and evaluation of small-molecule molecules; molecular recognition with emphasis on small molecule-protein interactions; synthetic mimics of mammalian cell surface receptors; nuclear hormone receptors and ligands; anticancer agents; mutagenic nucleosides as anti-viral agents. TEL: (785) 864-8156 FAX: (785) 864-5326

Email: bpetersonku.edu

**Timmermann, B. N.** (b.1947) University Distinguished Professor. B.S, 1970, Universidad Nac. de Cordoba, Argentina; M.A, 1977, University of Texas, Austin; Ph.D, 1980, University of Texas, Austin. **Medicinal and/or Pharmaceutical Chemistry; Natural Products Chemistry.** Natural products chemistry; biodiversity prospecting for drug discovery; antioxidant chemistry; catechins in cancer prevention. TEL: (785) 864-4495 FAX: (785) 864-5326 Web: www.medchem.ku.edu/faculty_timmermann.shtml Email: btimmer@ku.edu
